

## **HEC Ph.D. program seeks qualified and talented applicants for the upcoming intake in 2009.**

**Offering six specializations:**

- **Finance**
- **Accounting, Management Control and Organization**
- **Supply Chain Optimization**
- **Marketing**
- **Human Resources and Organization**
- **Strategy and Management**

**HEC Ph.D. program is characterized by the excellence of the HEC Faculty, a publication-oriented curriculum, a motivating scientific environment, and a strong international scope thanks to highly effective networking structures in and beyond France.**

**Recent HEC Ph.D. graduates have moved on to join faculties and schools such as IMD, Rice University, Rotterdam School of Management, Concordia, Tilburg University, HEC Montreal, Universidade Nova de Lisboa, The Chinese University of Honk Kong, Okland University, University of Monterrey, Babson College, University College Dublin, London School of Economics...**

**The HEC Ph.D. program also offers the possibility of attending Blocked Intensive Seminars on campus and welcomes Ph.D. students in the framework of an Individual Research Program (for details visit our website at [www.hec.fr](http://www.hec.fr))**

### **What our alumni say about the program:**

*The increasing required qualification level on the global job market, in terms of research and teaching skills, creates the need for doctoral training, which meets today's criteria of excellence. At HEC, the doctoral candidate will receive an integrated, cutting-edge preparation for a successful job search and further academic career, and will benefit from the advice and support of top level faculty, in a stimulating and diverse social environment.*

**Nikos KAVADIS, HEC Ph.D., Assistant Professor of Strategic Management, Rotterdam School of Management**

*"At HEC, I found the perfect environment to prepare me for the job market. First, HEC PhD's rigorous curriculum trains us to publish in top tier journals and teach highly demanding managerial audiences. Second, the reputation of the school and of its world-class faculty enhances our visibility, which greatly facilitates access to foreign universities, both for research stays and the job market. Third, both HEC faculty and former HEC PhD students have extensive networks and have always been willing to share precious information as well as connect us to their networks. Last but not least, HEC PhD strongly encourages us to attend international conferences and consortia to increase our visibility and get top-notch feedback to enhance our research quality."*

**Ghilem BASCLE, HEC Ph.D. candidate, Visiting fellow at Harvard Business School**
