

HEC UK Office

The HEC UK Office opened in January 2014 and aims at raising brand awareness with corporate partners as well as prospective students.

The HEC UK branch fosters engagement with UK-based employers and encourages interactions with HEC Paris's academic partners - the London School of Economics, Oxford Said Business School, UCL, Warwick Business School and Edinburgh University.

The UK Office supports numerous career activities, including large study trips where students have the opportunity to gain first-hand insights into the UK job market. In 2016, some 350 students were given the opportunity to network with 50 companies spanning various industries.

Finally, the HEC UK Office supports the 2000-strong HEC Alumni network in the UK which represents the largest community of HEC Alumni outside of France.
