Faculty Opening

The Department of Operations Management and Information Technology of HEC Paris (France) has one opening for a Tenure-track faculty position in Operations and Supply Chain Management to begin September 2015. We seek candidates with expertise in areas including sourcing, collaborative management, supply chain strategy and optimization. Candidates with expertise in technology management, new product development, service management and sustainable operations are also encouraged to apply.

A strong potential both in research and teaching is required. Applicants must demonstrate their potential for conducting outstanding research to be published in leading international journals. Support and financial incentives for research are excellent. Teaching experience in MBA programs and/or executive education are appreciated.

HEC is an international business school with a broad range of multidisciplinary programs offered in English. In the last years, HEC Paris has been ranked #1 European business school by FT (http://rankings.ft.com/businessschoolrankings/european-business-school-rankings). It is located on a 250-acres beautiful campus in Jouy-en-Josas, less than 15 minutes from Paris and Versailles.

This position is targeted at the assistant professor level, but experienced candidates at senior levels are also encouraged to apply.

To ensure consideration, applications should be received by January 31st, 2015. However, the search will continue until the position is filled.

Interested applicants should send (preferably by email) a cover letter, curriculum vitae, research and teaching statements, selected research papers, and three letters of recommendation to:

Professor Christian van Delft
Head of Department, Operations Management and Information Technology
HEC Paris
1 Rue de la Libération, 78351 Jouy-en-Josas Cedex, France.
