## Thomson ONE Analytics Quick Reference Card

**Side Navigation Panel:** Display available content sets by expanding folders

- Real-time Broker Research for an individual equity or for all stocks in your portfolio
- Up to five years of daily mean history available for all measures – downloadable to Excel
- Easy access to Corporate Disclosure and Events information from StreetEvents
- Worldscope Fundamentals data – history available as far back as 1980
- Search for instruments or research which meet your specified criteria

**Entity Manager:** Choose to look at content on a security, portfolio or market level. Context is maintained as you navigate between screens

- Current filtered mean of available estimates.
- Preliminary estimates give you near-immediate access to estimate revisions as soon as they have passed through I/B/E/S’ initial quality checks.
- View detailed Analyst forecasts, from over 1,000 contributing brokers, for up to 26 measures
